### **Superior Home Care & Hospice Earns 2015 HealthInsight Quality Award for Demonstrating Excellence in Patient Care**

Murray, Utah January 2016 – Superior Home Care & Hospice has been presented with the 2015 HealthInsight Quality Award for its commitment to improving and promoting patient-centered care. The award is presented by HealthInsight, a nonprofit, community-based collaborative working to improve health and health care for patients and providers.

Home health agencies are honored if they complete a quality improvement project aimed at improving patient-centered care and for demonstrating high quality health care and excellence in performance on publicly reported quality of care measures and other specified quality markers. These measures come from data that are voluntarily reported by home health agencies across the nation.

*“We pride ourselves in providing the highest quality Home Health Care and Hospice available in the Salt Lake City Community where we have been serving patients and their families for 20 years. We have been presented with this distinguished HealthInsight Quality Award for each consecutive year 2005-2015,” said Darin Pace of Superior.*

*“Our Acute Care Hospitalizations Rate (Re-admissions) is 9%, over an 8 year period, and is the lowest among all competing agencies serving Salt Lake City!” – Darin Pace*

“We are pleased to recognize these outstanding home health agencies that are continually working to improve health care quality and patient care for the residents of Utah,” said Juliana Preston, executive director, HealthInsight Utah. “Their commitment to excellence in providing quality health care delivery is evidenced by their achievement of this award.”

The HealthInsight Quality Award Program was launched in September 2004 to promote transparency in health care. HealthInsight aims to help providers improve health care and help patients become more active and informed participants in that care.
